3 HOUR WALKING AND MOTORCOACH HISTORY TOUR

LEHMAN'S VISITOR CENTER

Motor coach arrives at One Niagara. Guests will walk directly across the street to the Orin Lehman's visitor center. Here guests will enjoy a thrilling 30 minute Imax Movie "Niagara Legends of Adventure" on a new 45 foot large screen Dolby surround sound TV. Come be amazed by the sights and sounds of the power of the Niagara Falls. Learn about the Myths, Mysteries and Magic into the past and enhance your experience as you start your 3 hour journey into the history of the Falls. (Visitor center also offers interpretive displays and exhibits to enjoy before or after the movie). Approximate time in visitor center can be 1 1/2 hours between movie and displays.

PROSPECT POINT OBSERVATION TOWER

From the Visitor center the guide will move the group to Prospect Point Observation Tower where they can view the American Falls to their east and get a perspective unlike any other from 282 feet above the falls. The Maid of the Mist loads directly below the tower for a first hand viewing experience of this grand vessel.

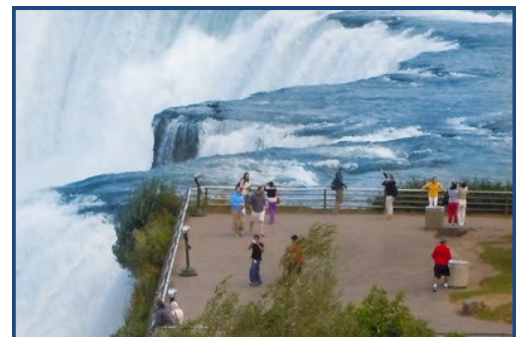

GOAT ISLAND

The group then returns to the bus at the entrance of the State Park and makes their way to Goat Island. This Island sits between the Horseshoe and Bridal Veil Falls and connects to Luna Island and Three Sisters Island by pedestrian Bridges. The guide will navigate the group through the two Islands and another major observation point that make up Goat Island.

Experience all this while "Strolling through acres of brilliant floral gardens that depict the Great Lakes region above the falls, including grassy areas in the shapes of Lakes Michigan, Superior, Huron and Erie, as well as a walkway that follows the course of the Niagara River".

LUNA ISLAND

Your first stop on Goat Island is Luna Island. This Island separates the American and Bridal Veil Falls. Leaning over the edge of the Bridal Veil Falls, reveals the Cave of Winds. "The island is said to derive its name from the ability of an observer, when standing on the island during a full moon, to see "lunar rainbows" in the Niagara mist".

TERRAPIN POINT

Located on the northwestern corner of Goat Island, Terrapin Point is the second major observation area and the best place to see the Canadian Horseshoe Falls and Niagara Gorge. If the winds and air is just right, here you will really feel the mist on your face.

THREE SISTER'S ISLAND

Connected by three bridges all overpassing the raging rapids just before they race to the crest of the grand Horseshoe Falls. The Islands were discovered by Celinda, Angelina, and Asenath Whitney, daughters of General Parkhurst Whitney. Hence, Three Sisters Island. Its been told, If you listen carefully, you can hear the voices of the spirits, say modern day psychic's.

NEW YORK POWER VISTA

Finally, end your history tour with a visit to the Power Vista. The Power Vista features more than 50 interactive exhibits and an observation deck. Located just 4 miles downstream from the Falls, it is set amidst the spectacular scenery of the Niagara River Gorge. Visitors of all ages enjoy the hands-on experience as they learn about hydroelectricity and the historic role it has played in the Niagara Frontier.
